PERMIT

Proposed Works

TBD

Development Schedule

BEGIN PROJECT

January 1, 2015

COMPLETE PROJECT

January 1, 2017

PUT WATER TO FULL USE

January 1, 2019

Measurement of Water Use

How often must water use be measured?

Annually

How often must water use data be reported to Ecology?

Upon Request by Ecology

What volume should be reported?

Total Annual Volume

What rate should be reported?

Annual Peak Rate of Withdrawal (gpm or cfs)

Provisions

All diversion for irrigation shall cease when the flow of the Kettle River falls below 600 cubic feet per second, from April 1 to July 31 and 300 cubic feet per second, from August 1 to September 30 as measured and recorded by the United States Geological Survey (USGS) at Ferry, Washington.

Measurements, Monitoring, Metering and Reporting

An approved measuring device shall be installed and maintained for each of the sources identified by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Water Use Efficiency

The water right holder is required to maintain efficient water delivery systems and use of up-to-date water conservation practices consistent with RCW 90.03.005.

Proof of Appropriation

The water right holder shall file the notice of Proof of Appropriation of water (under which the certificate of water right is issued) when the permanent distribution system has been constructed and the quantity of water required by the project has been put to full beneficial use. The certificate will reflect the extent of the project perfected within the limitations of the permit. Elements of a proof inspection may include, as appropriate, the source(s), system instantaneous capacity, beneficial use(s), annual quantity, place of use, and satisfaction of provisions.

Schedule and Inspections

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

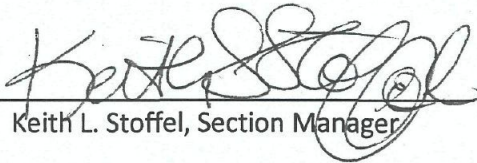

Dated this 14th day of March, 2013, at Spokane, Washington,

Department of Ecology

Re: Surface Water Permit No. S3-30516

Dear Mr. Fahsholtz:

Enclosed is your permit to be retained for your records. Please read the enclosed information sheet, as well as your entire permit.

This permit authorizes you to construct your project and put water to use.

We are enclosing a *Construction Notice* form. Once you begin construction, complete and submit the form to this office. **If you cannot begin your project by January 1, 2015, you must contact this office to apply for an extension.**

If you have any questions, please contact Kevin Brown at 509-329-3422.

Sincerely,

Karen Tusa
